PROFESSIONAL SUMMARY

BCA student with hands-on experience in software development, database management, machine learning, and web development. Skilled in Python, Java, C++, SQL, and developer tools, with practical project experience in AI assistants, NLP-based fake-news detection, cloud-oriented agriculture systems, and database applications. Strong in problem solving, analytical thinking, teamwork, communication, and continuous learning.

EDUCATION

Bachelor of Computer Applications (BCA)

Uttaranchal University, Dehradun

Expected Graduation: 2027

CGPA: 6.50 / 10

Senior Secondary (Class XII)

Shri Guru Ram Rai Public School, Patel Nagar, Dehradun

Year of Passing: 2023

Percentage: 65.5%

TECHNICAL PROJECTS

AgriCloud AI — Cloud-Based Intelligent Agriculture Decision Support System

BCA Major Project

Technologies: Python, Machine Learning, Flask, Cloud, APIs

- Developed a cloud-oriented agriculture decision-support concept combining web functionality with machine-learning-based farming insights.
- Designed modules for crop recommendations, weather information, soil/crop analysis, and AI-assisted farmer support.

AI Voice Assistant (Billu Sanda AI)

Personal Project

Technologies: Python, Speech Recognition, Text-to-Speech, AI APIs, Automation

- Built a voice-controlled assistant exploring speech recognition, text-to-speech, AI interaction, and desktop automation.
- Implemented voice-driven workflows for application launching, web services, music playback, and assistant responses.

Fake News Detection System

Machine Learning Project

Technologies: Python, Scikit-learn, NLP

- Built an NLP pipeline to preprocess text and classify news articles into genuine or misleading categories.
- Applied feature extraction, model training, and performance evaluation to assess classification results.

Relational Inventory Management System

Database Project

Technologies: SQL, DBMS

- Designed a normalized relational database for structured inventory tracking and data management.
- Implemented SQL queries and database relationships to support efficient data retrieval and maintain data integrity.

PROFESSIONAL EXPERIENCE

Green Business and Computing Intern

Jun 2025 – Jul 2025

Division of Research & Innovation, Uttaranchal University, Dehradun, India

- Supported research and innovation activities related to green technologies and sustainable computing practices.
- Gained practical exposure to eco-responsible computing approaches and technology-focused business strategies.
- Collaborated with institutional teams on research workflows, analysis, and project-oriented activities.

TECHNICAL SKILLS

Languages: Python, Java, C++, SQL

Core Areas: DBMS, Data Analysis, Machine Learning, NLP, Web Development

Tools & IDEs: GitHub, VS Code, Microsoft Word, Excel, PowerPoint, Google Workspace

Soft Skills: Problem Solving, Analytical Thinking, Teamwork, Communication, Project Management, Time Management, Adaptability

CERTIFICATIONS & ACTIVITIES

- Green Business and Computing Internship** — Division of Research & Innovation, Uttaranchal University (2025).
- Technical engagement through university workshops, coding activities, and project-based learning.
- Continuous self-learning in programming, AI/ML, databases, and software development.
